ABSTRACT
The education is considered as one of the vital aspect in creating professionals. Stress is considered as major area in present learning process. The objective of this research article is to determine the impact of stress on MBA student’s performance. The research was carried out at Mysore district. Four dimensions were considered for this study they are interpersonal, intrapersonal, academics and environment. The simple random sampling method was deployed by the researcher. The result of the study determines that few dimensions were significant.

KEY WORDS: – Stress, Students, Mysore
