ABSTRACT
Food security is lacking in India as many people die due to hunger in many parts and their number is increasing every year. To ensure food security is the responsibility of the Food Corporation of India. Food Corporation of India was set to ensure proper supply and distribution of food grains in all parts of country. In this paper role of FCI in food security is explained. Cases of irregularities and corruption are highlighted and suggestions are given to revamp the image of FCI.

KEY WORDS: Food security, Food Corporation of India.
