ABSTRACT Online Examination System forms the lifeline of the Educational Institutes, Organization, and Company for the functioning of examination. It is very useful for an Educational Institute, Organization, and Company to test its candidate continuously for their mutual development. Many systems are used for conducting Multiple Choice Question (M.C.Q) and Subjective Type Questions. This helps to conduct exams regularly as well as for surprise tests and provides immediate results saving the valuable time of faculties to evaluate the papers and prepare mark sheets.

KEYWORDS: Administrator, objective examination, subjective examination, Web based system, Window based system.
